According to ESU policy, the social dimension needs to be the starting point on which
strategies, visions and decisions should be built upon, but it is increasingly treated as side
aspect within the higher education environment. In order to promote the student point

2.d.a. Based on the ESU policy, a lobby strategy on how to fight against unpaid internships and inappropriate working environments both during and after studies will be developed. As a part of this, ESU will define and promote what a real internship is, to ensure that the word is exclusively used to refer to activities with an educational purpose.
