european students' union

## ESU | Logo Usage Guidelines

The following document covers specifics such as colours, size recommendations, space requirements and more. There are also clear guidelines regarding which version to use for various applications as well as specific CMYK and RGB numbers from the Pantone Matching System to insure accurate and consistent use of colours.

The ESU logo is a CMYK logo. This means that a 4-color process is used to create the varied colours and shades of this logo. Pantone colours should never be used when recreating this logo. If a 4-color process cannot be used in a particular application, please use the one colour version (grayscale) of the Logo.

### Area of protection | Clear space

The ESU logo is most effective when surrounded by as much open space as possible. A minimum area of unobstructed clear space, as demonstrated in the diagram to the right, must surround the logo in all situations.

Clear space is defined as an area that is completely free of other objects or elements, including, but not limited to, type, borders, edges, other logos, words, graphics, slogans, numbers, and design features, or symbols, company names, products, and/or services.

The clear space must be consistent on all sides of the logo and should be approximately equal to the measurement of 0.5cm from the most obtrusive element of the logo at any point.

Minimum size requirements for the ESU logo are 2cm in width; the height will fall accordingly.

Where the logo size is reduced to such a degree that the words 'european students' union' are illegible the secondary 'bar' logo should be used.

**Note:** This area of protection is required to ensure impact and understanding of the ESU brand within any environments. However, if the environment is controlled by ESU such as an ESU brochure or publication, there is a certain level of flexibility.

## Typefaces

E =	Kabel Bk BT, lower case
SU =	Century Gothic (3 point sizes larger than 'e'), Upper case
European students' union =	Myriad Pro Regular, all lower case

## ESU Logo incorrect usage
