

The Together, Moving Forward programme aims at building positive refugee-host interactions across Europe. Concretely, through TMF we encourage young people and students around Europe to take an active role in society by implementing grassroots projects supporting social inclusion of young people with refugee and migrant backgrounds in higher education and in society.

Since 2017, ESU has supported more than 40 projects, at local and national levels, led by students and youth across Europe. You can find [here](#) some of the best projects we have supported.

We will soon launch a new call for projects with the aim to keep supporting initiatives proposing concrete solutions, to support inclusion of young refugees in education and in the European society, particularly after the Covid-19 pandemic.

Based on the experience acquired during the previous and current editions of the programme, we will organise a training event where, through interactive activities, we will work on submitting meaningful project applications and on getting ready to implement them.

The event will target:

- participants who would like to apply to the Programme and would like some support to do so
- people/organisation who already applied and would like to improve their project idea and concept.

WHEN: 1, 2 and 5 October (time to be confirmed). Participants will have to attend the 3 days.

1st October: afternoon

2nd October: all-day event

5th October: morning

- ★ **HOW:** Due to the Covid-19 pandemic, the event will be online, on Zoom, but we will try to make it as interactive as possible.
- ★ **WHO:** We are looking for 20 motivated people who plan to (re) apply for a Together, Moving Forward grant. We strongly encourage participants with a refugee background to apply
- ★ The event is a safe space for participants to:
 - Create a network to support each other and share information and experience
 - Share ideas and concerns with other people working on the same area or topic
 - Reflect on key concepts useful for the application and project design: e.g. social inclusion /// integration /// assessment of needs /// community engagement /// access to education and recognition of prior learning /// project management
 - Get tips for the writing of the application and budget or the implementation process
 - Reflect on project management with the aim of improving the design of projects in the applications and/or to get prepared for the implementation phase
 - Meet people involved in citizens' initiatives supporting refugees and asylum-seekers in Brussels

MOTIVATED? APPLY [HERE!](#)

Deadline for applications: **[27 SEPTEMBER 2020, 23:59 Brussels time.](#)**
We will select participants based on their motivation and keeping in mind a geographical and gender balance.

Any question? Feel free to contact Fanchon at movingforward@esu-online.org
